# Microsoft Teams

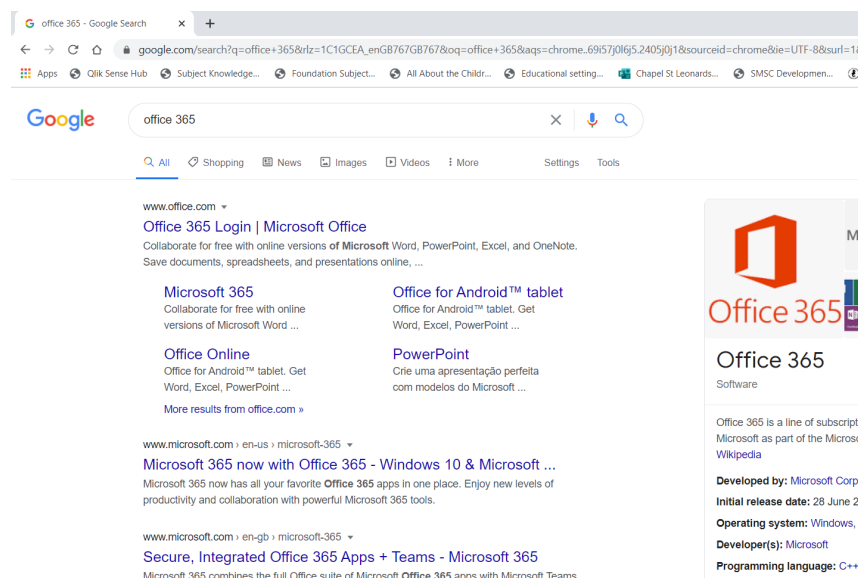

We will use Microsoft Teams to contact children each day. We will have virtual meetings, set work and feedback on work using this platform.

To login your child uses their school email address and password which is found on their 'My Logins' sheet.

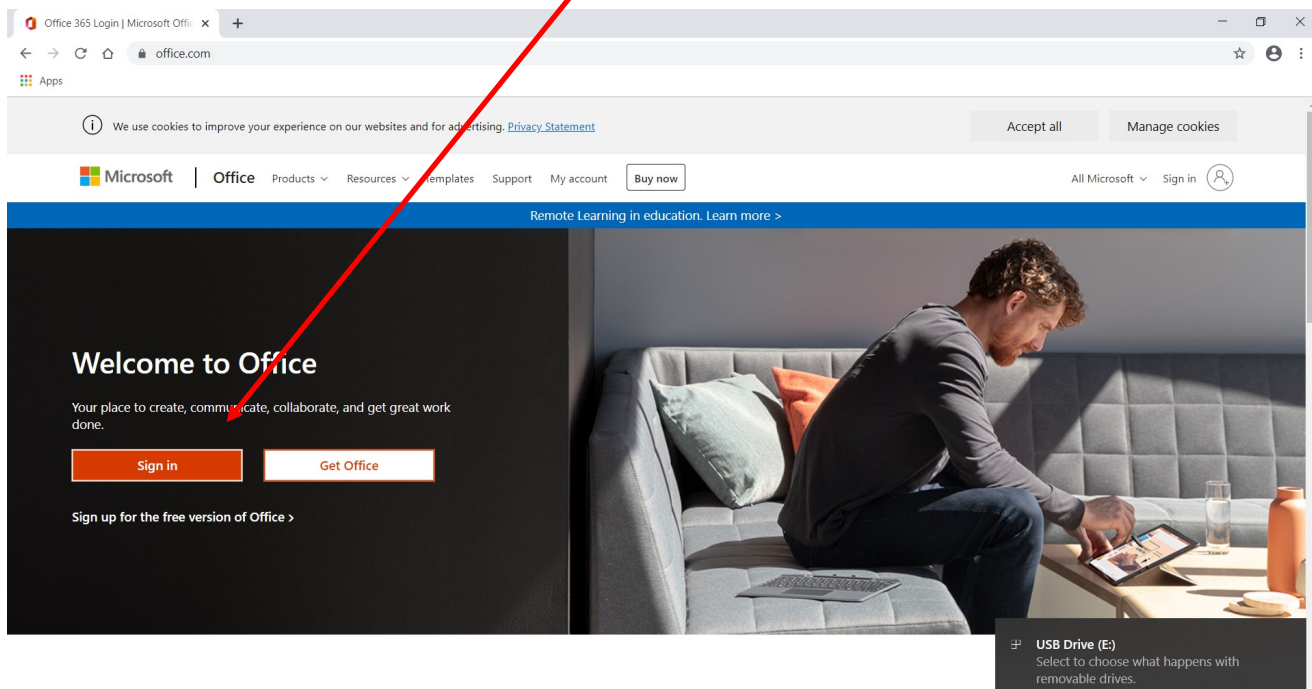

You can access Teams on a laptop or download the app on a tablet.

Logging in on a laptop:

1. 'Google' Office 365 in the address bar and click on ' Office 365 Login - Microsoft Office'

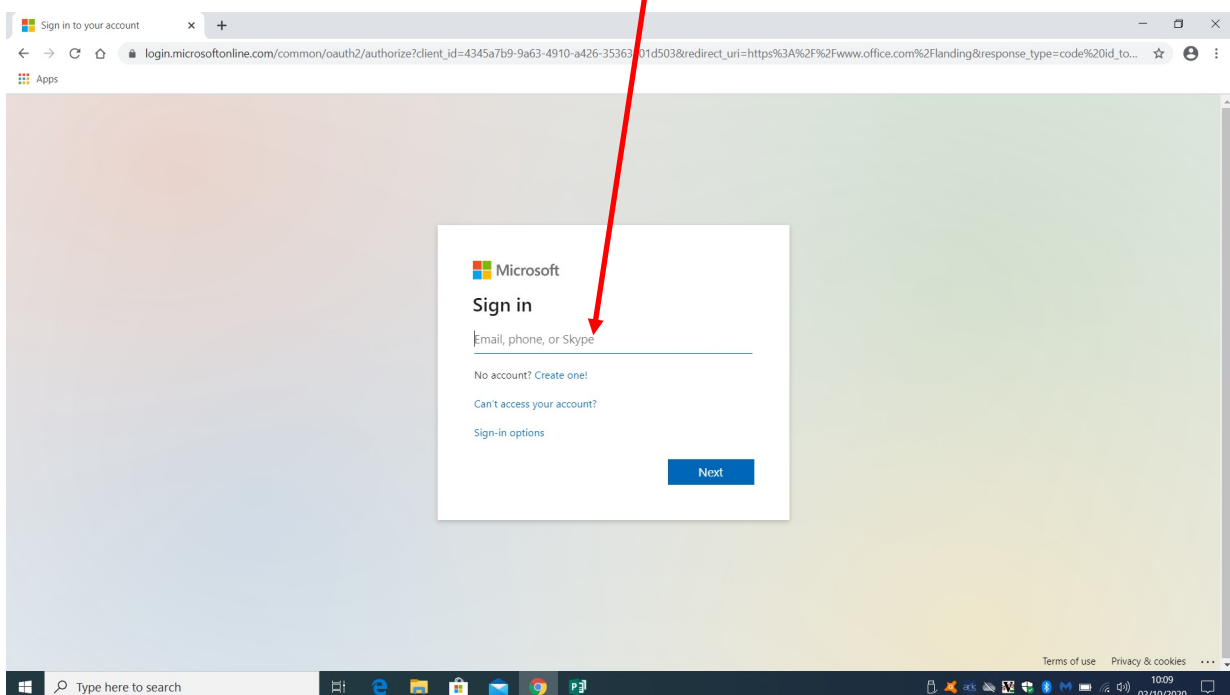

## 2. Click on the 'Sign in' button.

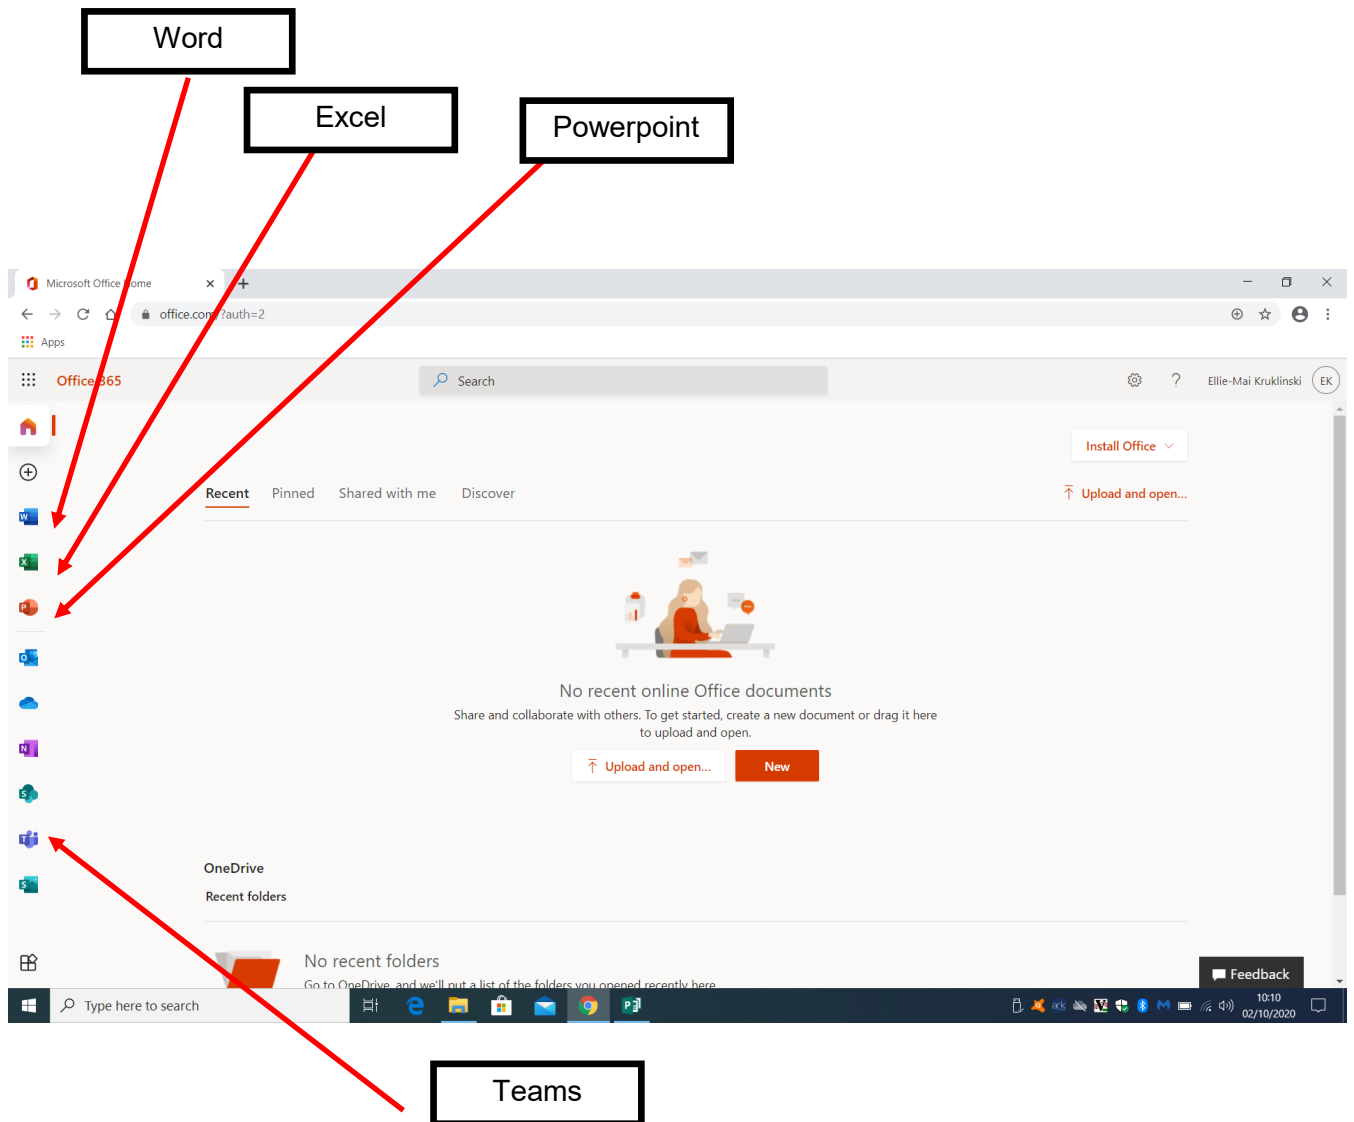

## 3. Now type in your school email address and password (from the 'My Logins' sheet). Type the email address exactly as it is shown.

Type email address here and then your password when prompted.

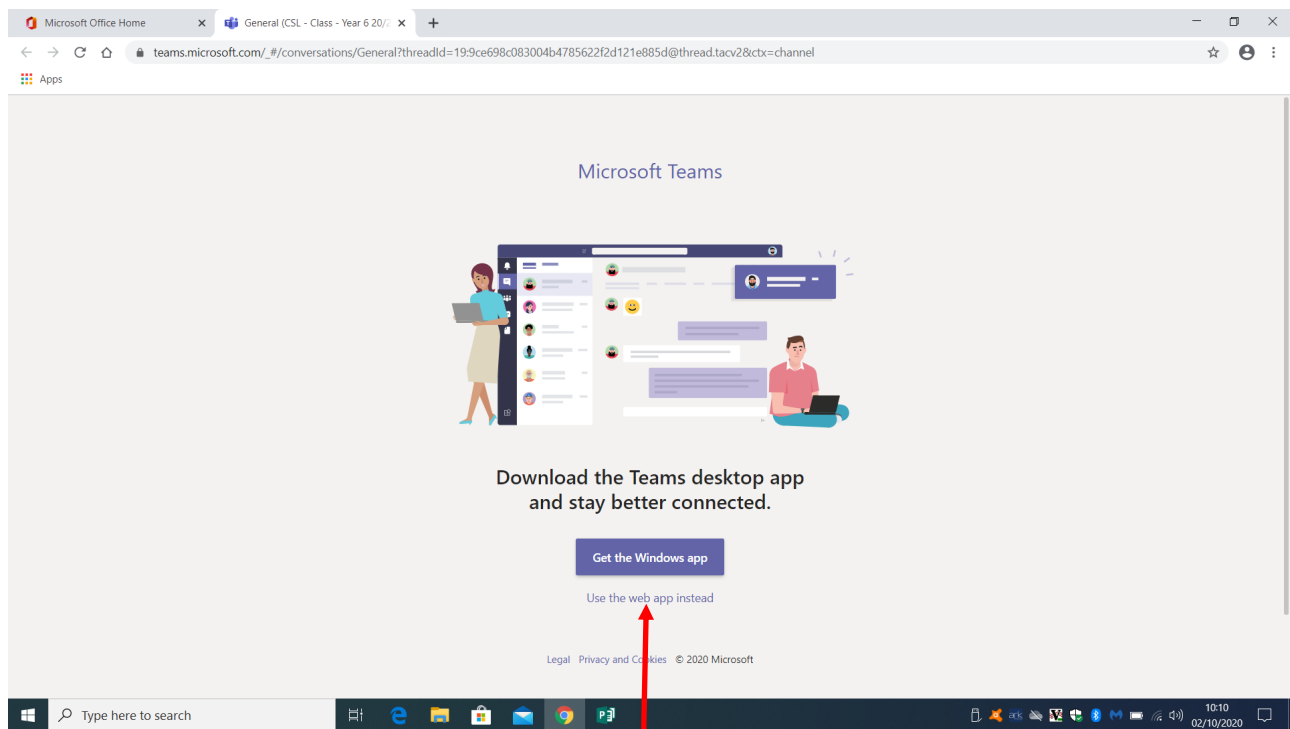

4. You will see the screen below. You now have access to all Microsoft products such as Word, Excel, Powerpoint and Teams.

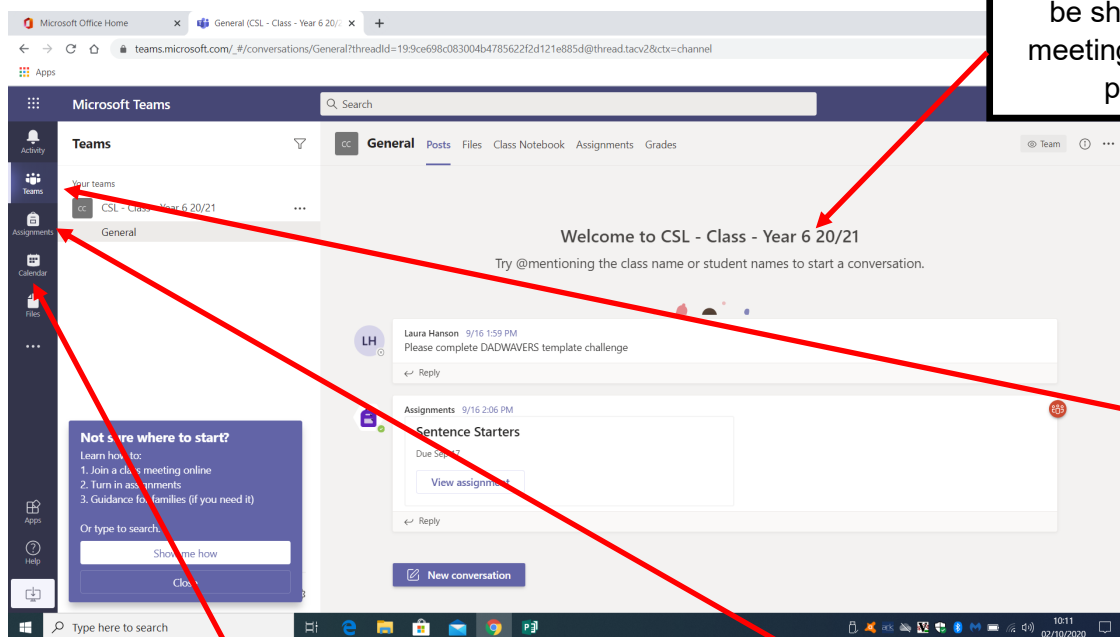

You can use all of these programmes to create work and save your documents here and on the One Drive.

## 5. Click on the Teams button to access Microsoft Teams.

Click on the web app if you are on working on a laptop.

## 6. This is what Teams looks like

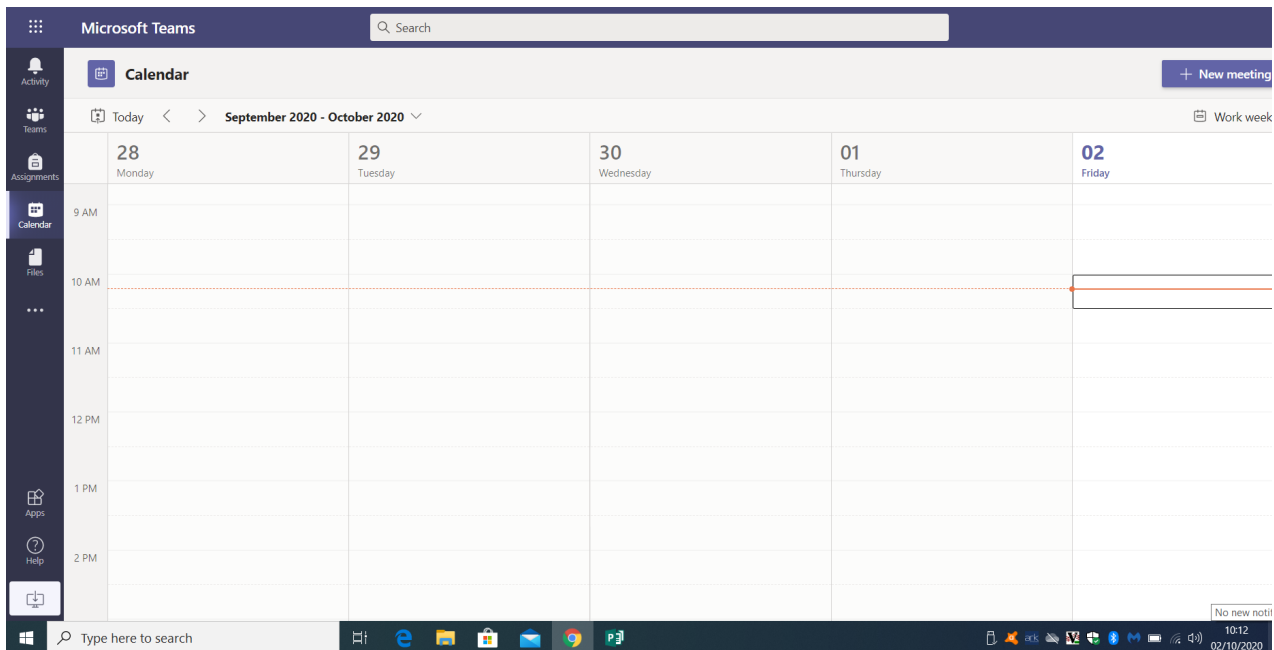

This is your Class Team where work will be shared and meetings will take place.

This tells you what your Teams are and which teams you are in.

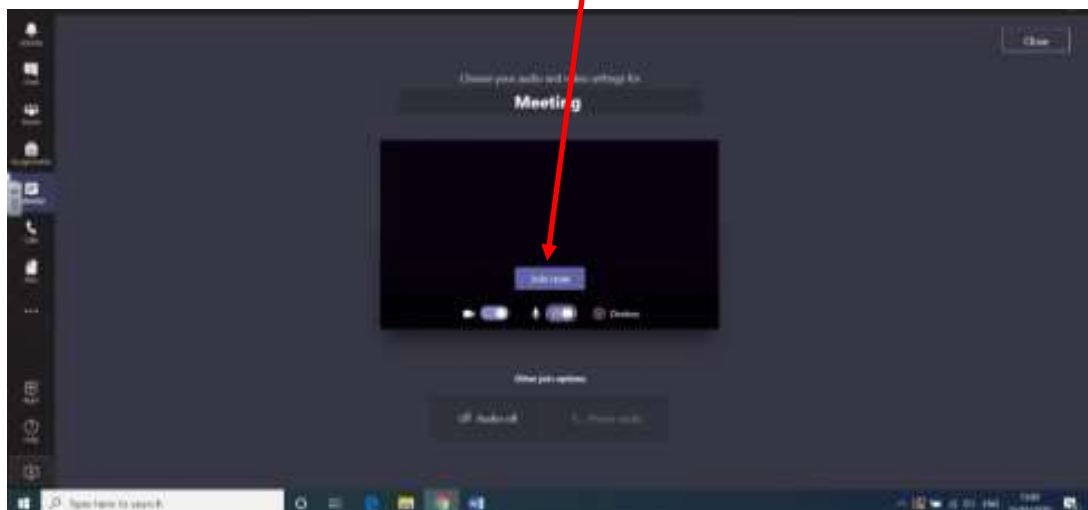

This will show you when your scheduled meetings are (day and time).

This is where you will find home learning activities which have been set by your class teacher.

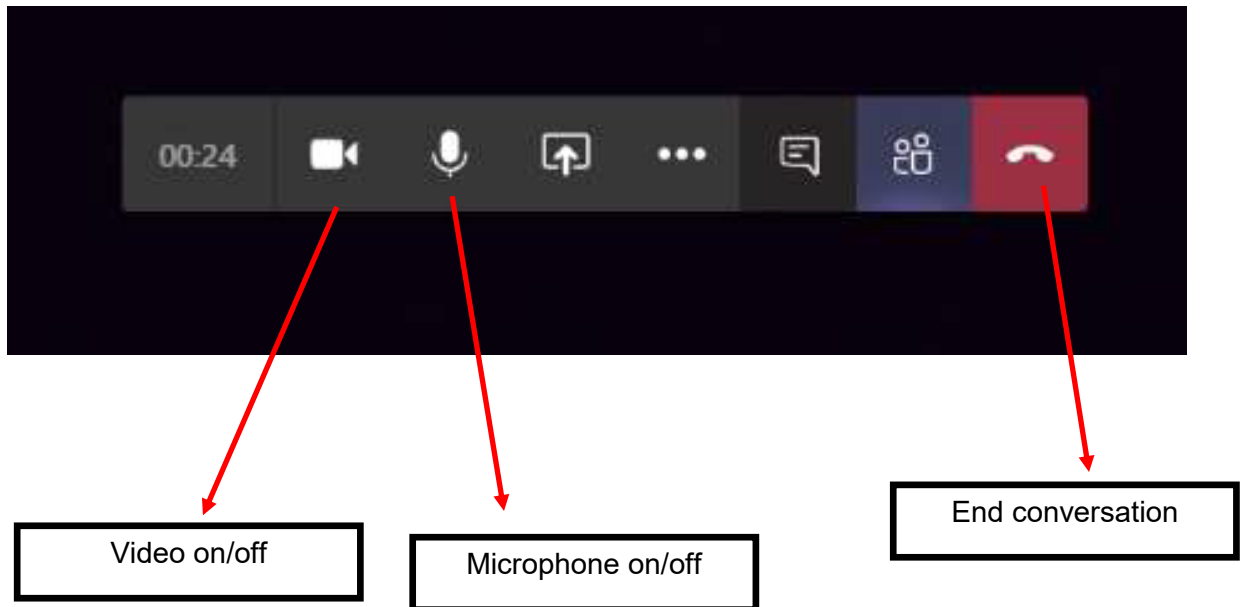

7. To attend meetings you will be able to see the meetings in your calendar this is what it looks like. You will see the meeting in the calendar that you can join. Click on the meeting to join.

8. When you have clicked on a meeting this window will open. Make sure your camera is on but your microphone is off when you join the meeting. Then click 'Join Now'

9. When in a meeting, moving the mouse over the back screen activates a toolbar which looks like this.

If you have a tablet or a phone you can download the Microsoft apps

- Word
- Teams
- Powerpoint
- Excel

You can login using your school email address and password and use these apps.
